Home-Based Business

OBJECTIVE: In the past, jobs provided most everyone with a dependable pay envelope and long range security - but not anymore. An alternative is to go into business, yet most people don't have the confidence to start a full-time business. This session will review the dos and don'ts of operating a home-based business, how to pick the right business, and the common pitfalls. You will realize that these businesses still require business skills just like any other business.
